

recovery. For example, people with diabetes can reduce their risk of blindness with timely laser surgery, the effects of glaucoma can often be prevented, and studies are exploring the role of vitamins and minerals in slowing the progression of age-related macular degeneration and cataract.

To educate people about these strides and to encourage all Americans to protect their precious eyesight, the Congress, by joint resolution approved December 30, 1963 (77 Stat. 629; 36 U.S.C. 169a), has authorized and requested the President to proclaim the first week in March of each year as "Save Your Vision Week."

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, do hereby proclaim March 3 through March 9, 1996, as Save Your Vision Week. I urge all the people of the United States to participate in this observance by making eye care and eye safety a priority and to recognize the important contributions that vision research makes to our lives. I invite eye care professionals, the media, and all public and private organizations committed to the goal of sight preservation to join in activities that educate our citizens about the simple steps they can take to save their vision.

IN WITNESS WHEREOF, I have hereunto set my hand this first day of March, in the year of our Lord nineteen hundred and ninety-six, and of the Independence of the United States of America the two hundred and twentieth.

WILLIAM J. CLINTON

Proclamation 6870 of March 8, 1996

National Park Week, 1996

*By the President of the United States of America
A Proclamation*

For millions of visitors every year, America's 369 national parks serve as living examples of the diversity, history, and natural wonders that have always defined this country. We owe a debt of gratitude to the men and women of the National Park Service, whose outstanding work to preserve and protect these treasures ensures that they will be available to educate and enrich generations of Americans to come.

The National Park Service also reaches beyond the boundaries of our parks to share knowledge and expertise with other nations, State and local governments, American Indian tribes and Alaska Natives, agencies, and thousands of organizations and individuals. National Park Service programs are helping community leaders to create green spaces in urban areas from Seattle to Philadelphia; to rehabilitate the historic canal in Augusta, Georgia; and to return grey wolves to Yellowstone, red wolves to the Great Smoky Mountains, big horn sheep to the Rocky Mountains, and the peregrine falcon to parks nationwide.

Our national parks benefit from the work of many citizens dedicated to environmental stewardship and historic preservation. By working directly with the National Park Service or through the National Park Foundation, its congressionally chartered nonprofit corollary, park

partners sponsor educational programs, raise funds, provide visitor services, and donate time and materials to support our great public resources. These partners include the Student Conservation Association, the Boy Scouts and Girl Scouts, the National Trust for Historic Preservation, and hundreds of other interested organizations. Drawn from corporations, associations, and communities everywhere, over 100,000 Americans volunteer annually to keep our park system strong.

This year, National Park Week is dedicated to recognizing and celebrating the commitment of the National Park Service and its partners to America's unique historical, cultural, and natural heritage. I urge all the people of the United States to learn more about our national parks, the programs available in their communities, and to seek out opportunities to become a national park partner.

NOW, THEREFORE, I, WILLIAM J. CLINTON, President of the United States of America, by virtue of the authority vested in me by the Constitution and laws of the United States, do hereby proclaim April 22 through April 28, 1996, as National Park Week.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of March, in the year of our Lord nineteen hundred and ninety-six, and of the Independence of the United States of America the two hundred and twentieth.

WILLIAM J. CLINTON

Proclamation 6871 of March 11, 1996

National Poison Prevention Week, 1996

By the President of the United States of America

A Proclamation

As we recognize National Poison Prevention Week, we can be proud of the 35 years of public health efforts that have dramatically reduced the number of childhood deaths caused by poisoning. Measures such as child-resistant packaging and the lifesaving work of poison prevention experts have raised awareness of this important issue and given families and caregivers strategies to safeguard young people from harm.

Nevertheless, the American Association of Poison Control Centers estimates that over one million children each year are exposed to potentially toxic household materials. The Poison Prevention Week Council, a coalition of 38 national organizations dedicated to ending this threat, distributes valuable information to poison control centers, pharmacies, public health departments, and others to aid community poison prevention efforts. In addition, the Consumer Product Safety Commission has long required child-resistant packaging for a number of medicines and household chemicals. The recent development of such packaging that is easier for adults to open will mean more conscientious use of hazardous products and a decreased risk of accidental poisoning.

This week and throughout the year, we must remember that small safety measures—such as using child-resistant packaging correctly and keeping harmful substances locked away from children—can save lives. And if a poisoning occurs, a poison control center can offer
